THE UNIVERSITY OF CHICAGO

$\frac{1}{2} \cdot \frac{1}{2} = \frac{1}{4}$

10

1. The first group of people who are interested in the study of the history of the world are the historians. They are people who study the past and try to understand what happened and why it happened. They use a variety of sources, including books, documents, and artifacts, to reconstruct the past. They also try to understand the people who lived in the past and how they thought and felt. Historians are interested in the history of the world because it helps us to understand the world we live in today.
